

BRIXTON

SPRING 2021 | RESORT COLLECTION

It started with a hat. Growing up and finding inspiration in the 90s music scene of Southern California, a group of friends shared a diverse set of interests ranging from music and art to skateboarding and surfing. The unique dynamic among them gave birth to a brand driven by a desire to create connection through classic style. Looking to the past for inspiration, vintage headwear was our origin. The contrast of styling vintage hats in modern ways created a bold statement that propelled us to design our first product, The Hooligan.

Today, Brixton continues to deliver timeless style inspired by the past and built to live in the present.
