SKATEBOARDS

SPRING 2023

MORE IS LESS. THAT'S BETTER.

Welcome to Pylon Spring 2023.

All of our boards are proudly manufactured and printed in Canada. One of the many benefits of making our high-quality skateboards in Canada, aside from the low carbon footprint of raw materials, supporting the local economy and Canadian environmental production practices... is our ability to constantly be in a manufacturing cycle. Allowing us to sell through product and replenish, as-needed.

This ensures that throughout each year all the skateboards that are hitting shops are fresh, with optimum pop and maximum strength. Even this season's carryovers will be new wood.

More hassle. Less waste. Better product.
